NW Corner of Kortsen & Pinal Ave.

Having a denture does not mean losing your quality of life!

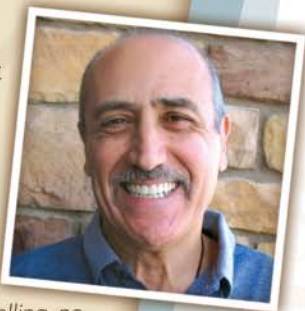

An implant-supported denture is anchored by dental implants, so it eliminates sore spots, the need for adhesives, and provides dramatically improved eating function and speech.

Impressions Dental is experienced in implant-supported denture placement, and seeks to preserve or restore your natural facial contours in all procedures. Our goal is for your new denture to look as great as if they were naturally your own!

So stop worrying about your dentures staying in place or constant maintenance. Instead, start regaining your confidence with an implant-supported denture!

Visit our website to read testimonials, view pictures, and learn more about our team. Or, call us to set up a tour and **FREE consultation!**

"I received implant-supported dentures yesterday. I was back at work the next day and am thrilled with the results... little swelling, no bruises. It took years for my wife and I to find a great dentist and now we will never go anywhere else." **John Pellegrini – Chandler, AZ**
